	Ref No:	Product Description	Quantity	Price
	SU-00-CC/100	The Blue Sensor SU is the world's first tab electrode to feature a wet gel. <ul style="list-style-type: none"> • Highly recommended for 12 lead ECG recordings • Superior adhesion • Provides optimal signal quality • Ten SU electrodes on a single liner • For use with crocodile clips - (packs of 500 or Box of 1200) 	<input type="checkbox"/> 500 Pack <input type="checkbox"/> 1200 Box	£35.20 £72.48
	P-00-S/50	The Ambu Blue Sensor P features highly conductive wet gel, superior adhesion and silver/silver sensor to ensure optimal signal quality during short to medium-term monitoring applications. <ul style="list-style-type: none"> • Stud connector • High quality electrode • Gentle to the skin foam backed - (50 per pack) 	<input type="checkbox"/> Pack(s)	£13.25
	BS-Tab-2300	The Blue Sensor Tab electrode features a skin-friendly solid gel that provides optimal signal quality recordings during 12-lead diagnostic resting ECG application. <ul style="list-style-type: none"> • Ideal for 12 Lead ECG recordings • Ten electrodes per liner • For use with crocodile clips - (500 per box) 	<input type="checkbox"/> Box(s)	£31.50
	0715	ECG disposable resting tab electrodes. <ul style="list-style-type: none"> • For use with crocodile clips - (500 per box) 	<input type="checkbox"/> Box(s)	£31.50
	P-00-A/50	The Ambu Blue Sensor P features highly conductive wet gel, superior adhesion and silver/silver sensor to ensure optimal signal quality during short to medium-term monitoring applications. <ul style="list-style-type: none"> • Banana plug adaptor • High quality electrode • Gentle to the skin foam backed - (50 per pack) 	<input type="checkbox"/> Pack(s)	£13.25
	L-00-S/25	The Blue Sensor L features highly conductive wet gel, silver/silver sensor and a combination of instant and long-term adhesives for excellent contact and stable signals throughout for long monitoring periods. <ul style="list-style-type: none"> • Ideal for Holter and Event Monitoring • Long term adhesion for multi day monitoring • Micro porous material to allow skin to breathe • Stable Trace and clear signal - (25 per pack) 	<input type="checkbox"/> Pack(s)	£7.95
	VLC-00-S/25	The Hypoallergenic Blue Sensor VLC features highly conductive wet gel, a combination of instant and long-term adhesives and silver/silver sensor for excellent contact and stable signals throughout long monitoring periods. <ul style="list-style-type: none"> • Hypoallergenic to minimize skin reactions • Stable Trace and clear signal • Ideal for Holter and Event Monitoring • Long term adhesion for multi day monitoring • Micro porous material to allow skin to breathe - (25 per pack) 	<input type="checkbox"/> Pack(s)	£20.50
	MSB/0334	Crocodile Clips Converts 4mm plug to crocodile clip - (Pack of 10)	<input type="checkbox"/> Pack(s)	£26.50

Prices are exclusive of VAT & postage and were correct at time of printing.

Alliance House, Roman Ridge Road. Sheffield S9 1GB
