	<p><b>PeraSafe Sterilising Agent</b> <b>81g Container - A100594</b></p>	<p>81g Container <b>£11.80</b></p>	<input type="checkbox"/>	

For the TrueFlow Spirometer there is a choice of two mouthpiece options:

**Option 1: Spirette M (sterilisable) + Disposable Mouthpiece** - Following a spirometry test the Spirette M can be sterilised using a solution of PeraSafe. Each Spirette M can be sterilised and reused many times. The Disposable Mouthpiece portion is discarded after each test.

**Option 2: Standard One Piece Spirette (sterilisable)** - Following a spirometry test the Standard One Piece Spirette can be sterilised using a solution of PeraSafe. The Spirette can either be sterilised and reused many times or discarded after each test for the highest possible level of cross infection control.

Note:

Each new TrueFlow spirometer will be supplied with a starter pack of consumables consisting of:

- Disposable Mouthpieces – Box of 200
- Spirette M multiple patient breathing tube (sterilisable) - Box of 50
- PeraSafe Sterilising Agent (5 x 16.2g sachets OR 81g container)
