

I3 Intelligent Integration Software For EMIS LV, PCS & WEB MAC600 Quick User Guide

1. After completing the ECG ensure the download cable is connected to the MAC600 and to the correct serial port on the PC.
2. Power on the MAC 600 and press **F4 (More)** then **F3** to enter the **File Manager** menu.
3. Press **F1** and select the ECG Reports to be transmitted using the **Enter** button.
4. Press **F3** to transmit the reports to the PC.
5. Double click the **I3 icon** on the desktop. **Note:** This will launch the I3 Software.
6. Click the **Start** button (shown right).
7. Select **MAC PDF Filer** from the product list and click **Start**.
8. Ensure the PDF ECG reports are matched with the correct patients (shown right). **Note:** If the ECG report has not been matched to the correct patient the clinical system database can be searched by clicking the **Search** button.
9. Click the **Add** button to add any required comments. **Note:** The ECG report can be previewed prior to filing by clicking the **View** button.
10. To begin the filing process in to EMIS, click the **Send** button.
11. Click **OK** on the confirmation message.

A PDF of the ECG report will now be attached in to the patient's medical record in EMIS. The **3212 Standard ECG** read code will also be filed.

12. To verify the ECG report has been successfully filed in to EMIS follow the instructions detailed over the page.

I3 Intelligent Integration Software For EMIS LV, PCS & WEB MAC600 Quick User Guide

Viewing the ECG Report in the patient's medical record:

Note: For the ECG to be displayed the PC must have a PDF viewer installed.

EMIS LV

1. Open the patient's record in EMIS LV
2. Go to Consultation Mode (**CM**)
3. Key in the ***RA** number of the ECG attachment.
4. The ECG report will be displayed as a PDF document. It may take a few seconds for the report to be displayed depending on network speed and usage. Alternatively, from the Medical Record (**MR**) key **Z** for attachments, select the required attachment and key **V** to view.

Note: For the ECG to be displayed, the PC attempting to open the ECG report must have a TEMP folder available on the C drive (C:\TEMP).

EMIS PCS

To view an ECG stored in the patient's notes:

1. Open the patient's record in EMIS PCS
2. Go to Consultation Mode (**CM**) or Medical Record - History
3. Right click on the ECG report and left click View Attachment.
4. The ECG report will be displayed as a PDF document. It may take a few seconds for the report to be displayed depending on network speed and usage.

EMIS WEB

To view an ECG stored in the patient's notes:

1. Open the patient's record in EMIS WEB
2. Go to Consultations
3. Double click on the ECG attachment paperclip.
4. The ECG report will be displayed as a PDF document. It may take a few seconds for the report to be displayed depending on network speed and usage.
