

# Carbon Reduction Plan

**Supplier name:** Numed Holdings Limited

**Publication date:** January 2024

## Commitment to achieving Net Zero

Numed Holdings Limited is committed to achieving Net Zero emissions by 2050. We will keep this date under review, bringing it forward if possible as our carbon reduction plans develop.

## Baseline Emissions Footprint

<b>Baseline Year:</b> 2022 (1 Jan – 31 Dec)		
<b>Additional Details relating to the Baseline Emissions calculations.</b> This baseline represents our first calculation of the carbon footprint of the organisation		
<b>Baseline year emissions (tCO<sub>2</sub>e):</b>		
<b>Scope 1</b>	15.2	
<b>Scope 2</b>	14.2	
<b>Scope 3</b>	156.0	
<b>Included Scope 3 categories</b>	3. Fuel- and energy-related activities	18.7 <sup>1</sup>
	4. Upstream transportation & distribution	81.6
	5. Waste generated in operations	9.0 <sup>2</sup>
	6. Business travel	2.9
	7. Employee commuting	43.7 <sup>3</sup>
	9. Downstream transportation & distribution	-. <sup>4</sup>
<b>Total Emissions</b>	<b>185.4</b>	

<sup>1</sup> This includes: emissions from electricity transmission & distribution losses; well-to-tank emissions associated with electricity generation; and well-to-tank emissions from fuel use.

<sup>2</sup> This includes solid waste and emissions associated wastewater treatment.

<sup>3</sup> This includes emissions from Employee Telecommuting, a sub-category of Category 7.

<sup>4</sup> All transportation & distribution has been captured within upstream transportation & distribution as Numed Holdings Limited has financial control of these operations.

## Current Emissions Reporting

<b>Reporting Year: 2022 (1 January – 31 December)</b>		
<b>Additional Details relating to the Reporting Emissions calculations.</b> This reporting year represents our first calculation of the carbon footprint of the organisation		
<b>Baseline year emissions (tCO<sub>2</sub>e):</b>		
<b>Scope 1</b>	15.2	
<b>Scope 2</b>	14.2	
<b>Scope 3</b>	156.0	
<b>Included Scope 3 categories</b>	3. Fuel- and energy-related activities	18.7 <sup>1</sup>
	4. Upstream transportation & distribution	81.6
	5. Waste generated in operations	9.0 <sup>2</sup>
	6. Business travel	2.9
	7. Employee commuting	43.7 <sup>3</sup>
	9. Downstream transportation & distribution	- <sup>4</sup>
<b>Total Emissions</b>	<b>185.4</b>	

## Emissions reduction targets

The organisation is committed to achieving Net Zero emissions by 2050 at the latest. We will keep this date under review, bringing it forward if possible as our carbon reduction plans develop.

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed:

- The organisation achieved Green Small Business Certification in July 2023, having developed an environmental policy and comprehensive action plan addressing all the significant environmental impacts of the business.
- We operate a partial hybrid working model, which reduces emissions from staff commuting.
- Business travel has been reduced through extensive use of videoconferencing.

### Planned Carbon Reduction Initiatives

Our environmental action plan commits us to the implementation of further measures which we anticipate will reduce the carbon intensity of the business, such as:

- Maximise energy performance of new premises.
- Ensure all unnecessary lights and IT equipment are switched off when not in use.
- Switching to a 'green' energy tariff.
- Adopt an Environmentally Preferable Purchasing Policy (EPP) to ensure environmentally responsible purchasing for all goods and services.

- Ensure that commuting emissions are a factor in the choice and design of new premises. Key considerations will be accessibility by public transport, cycling, and walking. Provisions for cyclists (secure & covered storage, showers) and provision of EV charging facilities.
- Promote car sharing.
- Providing a Cycle to Work Scheme.
- Implementing a 'use of transport' policy to ensure that emissions from business travel are consistently low.

## Declaration and Sign-off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standards for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>4</sup> and use the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>5</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>6</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

## Signed on behalf of the Supplier:
