

Universal Smart ECG System

Easy User Guide

support.numed.co.uk

1

Connect the Universal Smart ECG System to your PC or Laptop.

* If needed, use a 5m ATEN extension cable to reach between the PC and the examination couch.

2

Open the patient's record in the clinical system.

* Vision customers must ensure that the Numed Enterprise Link software is running on the remote desktop.

3

Double click the I3 icon. This is usually found on your taskbar or desktop.

4

Click the Start button.

5

Select 'ECG' from the product selection screen.

* If you have more than one ECG system, you may need to select Universal ECG.

6 Confirm the patients details are correct and then click 'Yes'.
